

Multiple Measures of Data On-Site Professional Development and Support

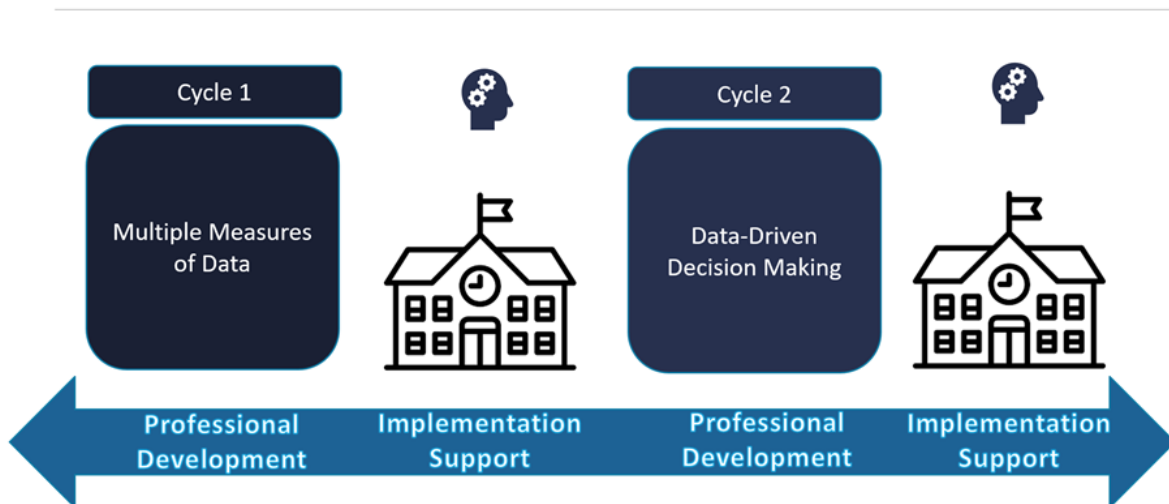

Multiple Measures of Data is a district-level training that provides on-site coaching and implementation support for campuses and districts. Participants will understand how data sets intersect in the areas of demographics, perceptions, student learning and school processes to provide a more vivid picture, leading to a more comprehensive root cause analysis and problem statements that lead to effective action. Participants also learn how to use, and receive coaching in, protocols to make data-driven decisions for an entire school system.

CENTER FOR EXCELLENCE IN SCHOOL TURNAROUND CONTACTS

Ruben Degollado, Director
956-984-6185 | rdegollado@esc1.net

Linda Espinoza, Program Assistant
956-984-6000 | lespinoza@esc1.net

The Center for Excellence in School Turnaround operates from the Region One ESC Office for School Improvement, Accountability, and Compliance (SIAC). We offer services built on a framework of collaboration, analysis of multiple measures of evidence, and insistence on high quality. Services may be pre-scheduled and available through the Professional Development System or you may request customized services to be delivered at a location of your choosing.

We appreciate your trust in us!
